

Call for Papers
a Session on

Metrology for Manufacturing

2016 ASME/ISCIE International Symposium on Flexible Automation (ISFA2016)
InterContinental Hotel & Conference Center
August 1-3, 2016, Cleveland, Ohio, USA

Session Technical Focus

Geometric and dimensional measurement play a key role in today's manufacturing processes. The measurement of a machine's motion accuracy is also a key to build a manufacturing system meeting the market's high demand for the accuracy and the efficiency. We cordially invite you to submit a paper to share your knowledge and expertise in all areas related to the metrology for machine tools. Papers from the industrial sector are particularly encouraged. The session welcomes both theoretical and applied papers in areas including, but not limited to:

- Motion accuracy measurement for machine tools
- On-the-machine measurement
- Optical measurement
- Three-dimensional measurement
- Large-scale geometric measurement

Paper Submission

The deadline for submission of your contribution to this session is **February 29, 2016**. Both short and long papers will be considered and reviewed. For short papers, please submit a summary of 1,000 words or less (short papers will be limited to 4 pages) and, for long papers, please submit a manuscript of no more than eight pages. All summaries and manuscripts should be submitted through the conference website at <http://engineering.case.edu/conference/ISFA2016/>.

Session Organizers

Soichi Ibaraki, Kyoto University, ibaraki@prec.kyoto-u.ac.jp
Junichi Kaneko, Saitama University, jkaneko@mech.saitama-u.ac.jp
Hirohisa Narita, Meijo University, hnarita@meijo-u.ac.jp
