Sample Course Sequence for Aerospace Engineering

NOTE: Before entering CWRU, it is highly recommended that students who want to study Aerospace Engineering have taken **PHYS 221** (Intro to Modern Physics). This can be taken in the summer prior to the first fall semester or at the liberal arts college, if equivalent course is available. An additional year may be required to complete the BSE degree otherwise.

The following courses are built into a sample course sequence but an equivalent course could be taken at the liberal arts college or during the summer at another institution to lessen the amount of credit hours taken each semester at CWRU.

Course	Course Title	Semester Credit Hours
ENGR 200	Statics and Strengths of Materials	3
ENGR 210	Intro to Circuits and Instrumentation	4
EMAE 181	Dynamics	3
