Faculty Position in Electrical Engineering
Department of Electrical, Computer, and Systems Engineering
Case Western Reserve University, Cleveland, Ohio

The Department of Electrical, Computer, and Systems Engineering (ECSE) at Case Western Reserve University (CWRU) invites applications for a tenure-track faculty position in Electrical Engineering at the Assistant Professor level. Appointments will be considered for starting dates as early as January 1, 2022. All applicants must hold great promise for research leadership and grant funding, teaching excellence, and service contributions. They must also be committed to working with a diverse population of students. Candidates must have a Ph.D. in Electrical Engineering or a closely related field.

The faculty search is focused on the broader area of robotics. The department is particularly interested in candidates with expertise in human-in-the-loop and human-collaborative robotic systems. Candidates specializing in machine learning as applied to robotic and other embodied artificially intelligent systems, and/or modeling of human behavior in human-robot systems will be of particular interest.

Successful candidates will hold primary appointments in the Case School of Engineering, although in many instances they will be eligible for additional appointments within other academic units of CWRU. Applicants should provide the names and contact information of three references in addition to a cover letter, CV, research, teaching, and diversity statements.

The diversity statement should explain how the candidates **value** diversity, equity, and inclusion within their research and discipline(s) and how their own scholarly work might contribute to structural justice inside and outside institutions of higher learning. This statement should also suggest how their work, while as a member of CWRU, will contribute to diversity, equity, and inclusion and how moving forward they intend to foster a culture of diversity, pluralism, and individual difference.

The search will continue until the position is filled; however, for maximum consideration the applicant should submit his/her materials by October 1, 2021. We welcome all nominations and applications for this available position; please contact Laura Kuhar at ecse-faculty-search-21@case.edu for additional information or to submit your application materials. Application materials can also be sent to:
